May 6, 1773. JAMES FRASER.

BOSTON, JUNE 28.

On Tuesday laſt the Honourable Board ſent the following Meſſage to his Excellency the Governor, in Anſwer to his Requeſt of the 17th Inſtant:——[See Supplement, p. 1.]

May it pleaſe your Excellency,

THE Board had returned your Excellency's letters to the Houſe of Repreſentatives, but have this day again obtained them with this reſtriction, that we by no means ſuffer them to go out of our hands.

Your meſſage informs us, that if we ſhall lay before you the original letters with your ſignature, you will "ſatisfy the Board whether they are genuine or not." Tho' the Board are not at liberty to lay them before you in the uſual way, yet they have directed their Committee to open the letters in your preſence, that your Excellency may ſatisfy yourſelf with with reſpect to the hand-writing, and to give you any further ſatisfaction, not inconſiſtent with the reſtriction before-mentioned.

Your Excellency ſays, "we cannot form a right judgment of all the parts of theſe letters, unleſs we ſhould be furniſhed with the letters to which yours are wrote in anſwer." As we are deſirous of forming a right judgment in this matter, we ſhall with candour read and conſider any letters your Excellency ſhall pleaſe to lay before us for that purpoſe. *June 22d*, 1773.

His Excellency's Meſſage to the Board.

Gentlemen of the Council,

CERTAIN letters have been laid before me which appear to be of my ſigning. The diſreſpect ſhewn me by the unuſual and indecent reſtrictions to your Committee, as expreſſed in your meſſage, is unprecedented. It can be no excuſe that you had ſuffered yourſelves to be laid under reſtraint. The propoſal, for it ought to have been rejected by you, as carrying with it ſtrong ſuſpicion of that unfairneſs with which the whole proceeding relative to theſe and other letters had been carried on from the beginning.

I recommend to you to give diſpatch to the buſineſs of the General Court now lying before you. *June 23d.*

Anſwer of the Houſe of Repreſentatives to the Governor's Meſſage of the 21ſt Inſtant.

May it pleaſe your Excellency,

THE Houſe have maturely conſidered your meſſage of the 21ſt inſtant, and fully apprehend that had we not paſſed and cauſed to be paſſed the votes and reſolves upon the letters referred to in your meſſage, we ſhould have betrayed a total want of a proper attention, not only to the honour and reputation of the province, but the true intereſt of our conſtituents, however unparalleled and injurious your Excellency is pleaſed to repreſent them, and can aſſure your Excellency, that this Houſe became poſſeſſed of thoſe letters in a manner truly honourable. Had your Excellency duly conſidered that thoſe letters contained matters of a very extraordinary nature, and that we have already paſſed upon divers matters of a public as well as a private nature, you would have judged it needleſs to have reminded us that we are near the cloſe of the fourth week of the Seſſion; we are however anſwerable to none but our conſtituents for the time we ſpend in doing the part of public buſineſs which they have choſen us to tranſact, and are clearly of opinion that we are at preſent the ſole judges of the time that is neceſſary for us to take in deliberating and determining upon all matters that may properly come under our conſideration.

Meſſage from the Council to the Governor.

May it pleaſe your Excellency,

THE Board have conſidered your Excellency meſſage received this day. They are humbly of opinion, that the reſtrictions to their Committee implied no diſreſpect to your Excellency, nor were they intended as ſuch; and if they were unuſual and unprecedented, it was becauſe the occaſion upon which that Committee was appointed, was original and unprecedented likewiſe. The Board think it not only a ſufficient excuſe, but a full juſtification of them, in laying ſuch reſtrictions on their Committee, that they could upon no other terms obtain the letters, to be laid before your Excellency, agreeable to your propoſal in your meſſage of the 17th inſtant; and are at a loſs to conceive how ſuch reſtriction could carry with it the leaſt ſuſpicion of unfairneſs on the part of the Board, which was very far from their intention.

The end which the Board had in view in laying theſe letters before your Excellency, was not ſo much to obtain ſatisfaction for themſelves as to their genuineneſs, as to give your Excellency an opportunity to lay any thing you might think proper to lay before the Board, when thoſe letters ſhall come under their conſideration.

The Board will give all attention to your Excellency's recommendation to them to give diſpatch to the buſineſs of the General Court lying before them. *June 24th.*

The Committee of Council on the Governor and Lieutenant-Governor's letters, unanimouſly reſolved that the ſaid letters were genuine, and as ſuch were to be conſidered; and on the 25th inſtant preſented their report on the ſaid letters, which is very long and particular. The council the ſame day read and accepted the ſaid report, and paſſed ſundry reſolves thereupon, the laſt whereof are,

Reſolved, That the exaggerations and miſrepreſentations contained in the aforeſaid letters, ſigned Thomas Hutchinſon and Andrew Oliver, collectively conſidered, have had an unhappy tendency, and have probably operated to bring upon this Province the diſpleaſure of our moſt gracious Sovereign; to procure the armaments which have been ſent hither, and are expreſſive of ſuch diſpleaſure; to prevent a redreſs of our grievances; and to alienate the mutual affection and diſſolve the union which ought always to ſubſiſt between Great-Britain and her colonies.

Wherefore, as duty and loyalty to the King, affection to the mother country, and regard for this province, muſt influnce the friends of them to deſire the removal of cauſes productive of ſuch effects: And whereas the mutual affection which ought ever to ſubſiſt between a people and their principal magiſtrates, is in this province totally deſtroyed by the conduct of the Governor and Lieutenant Governor; as they have entirely loſt the confidence of this people, and are conſequently become unſuitable inſtruments for promoting the inſeparable intereſts of the King and his faithful ſubjects here:

Reſolved, That if his Majeſty, in his great goodneſs, ſhall be pleaſed to remove his Excellency Thomas Hutchinſon, Eſq; and the Hon. Andrew Oliver, Eſq; from the Offices of Governor and Lieutenant Governour, it is the humble opinion of this Board, that it will be promotive of his Majeſty's ſervice and the good of his loyal and affectionate people of this province."

There was but one of the Reſolves above-mentioned that had ſo many as three diſſentients.

NEW-YORK, JULY 1.

On Monday the 22d ult. died at Weathersfield, in Connecticut, the noted Elizabeth Canning, whoſe caſe made a great noiſe in England about 20 years ago, when ſhe was arraigned for wilful and corrupt perjury; her trial laſted ſeven days, and is contained in near 300 folio pages of the ſtate trials vol 10. She was found guilty, but though recommended to mercy, at the inſtigation of that excellent citizen, Sir John Barnard, and that her ſentence might be only ſix months impriſonment, ſhe was tranſported at the requeſt of her friends, in Auguſt, 1754, and has lived ever ſince in New-England.

A FABLE.

By the celebrated Linnæus, *translated from the* Latin.

ONCE upon a time the seven Wise Sons of Greece were met together at Athens, and it was proposed that every one of them should mention what he thought the greatest wonder in the creation. One of them, of higher conceptions than the rest, proposed the opinion of some of the astronomers about the fixed stars, which they believed to be so many suns, that had each their planets rolling about them, and were stored with plants and animals like this earth. Fired with this thought, they agreed to supplicate Jupiter, that he would at least permit them to take a journey to the moon, and stay there three days in order to see the wonders of that place, and give an account of them at their return. Jupiter consented, and ordered them to assembly on a high mountain, where there should be a cloud ready to convey them to the place they desired to see. They picked out some chosen companions, who might assist them in describing and painting the objects they should meet with. At length they arrived at the moon, and found a place there well fitted up for their reception. The next day, being very much fatigued with their journey, they kept quiet at home 'till noon; and being still faint, they refreshed themselves with a most delicious entertainment, which they relished so well, that it overcame their curiosity. This day they only saw through the windows that delightful spot, adorned with the most beautiful flowers, to which the beams of the sun gave an uncommon lustre, and heard the singing of most melodious birds 'till evening came on. The next day they rose very early in order to begin their observations; but some very beautiful young ladies of that country, coming to make them a visit, advised them first to recruit their strength before they exposed themselves to the labourous task they were about to undertake.

The delicate meats, the rich wines, the beauty of these damsels, prevailed over the resolution of these strangers. A fine concert of music is introduced, the young ones begin to dance, and all is turned to jollity; so that this whole day was spent in gallantry, 'till some of the neighbouring inhabitants growing envious at their mirth, rushed in with swords. The elder part of the company tried to appease the younger, promising the very next day they would bring the rioters to justice. This they performed, and the third day the cause was heard, and what with accusations, pleadings, exceptions, and the judgment itself, the whole day was taken up, on which the term set by Jupiter expired. On their return to Greece, all the country flocked in upon them to hear the wonders of the moon described, but all they could tell was, for that was all they knew, that the ground was covered with green, intermixed with flowers, and that the birds sung among the branches of the trees; but what kinds of flowers they saw, or what kind of birds they heard, they were totally ignorant. Upon which they were treated every where with contempt.

If we apply this fable to men of the present age, we shall perceive a very just similitude. By these three days the fable denotes the three ages of man. First, youth, in which we are too feeble in every respect to look into the works of the Creator. All that season is given up to idleness, luxury, and pastime. Secondly, manhood, in which men are employed in settling, marrying, educating children, providing fortunes for them, and raising a family. Thirdly, old age, in which, after having made their fortunes, they are overwhelmed with law-suits, and proceedings relating to their estates. Thus it frequently happens that men never consider to what end they were destined, and why they were brought into the world.

BOSTON, JUNE 21.

EXTRACT from the Minutes of Council last Week, relative to the Governor's Letters, &c.

THERE are certain letters which have been laid before the House, signed Thomas Hutchinson, Andrew Oliver, Charles Paxton, and Robert Auchmuty, containing matters that nearly affect the interest of this province, and some particularly refer to the conduct of the Honourable Board; therefore the House have ordered copies of the said letters to be laid before the Honourable Board, that they may take such order thereon as they shall judge proper. The originals are at present in the hands of a Committee of the House; but if the Board are desirous of it, they may have them to compare with the copies.

Message to the House by Samuel Dexter, Esq.

ACQUAINTING the Honourable House that the Board had read the copies of the letters sent up, and desire the original letters may be laid before the Board.

Col. Hanock brought up and laid on the table, the original letters, which after comparing were returned.

Message to his Excellency from the Board by a Committee.

May it please your Excellency,

THE House of Representatives have communicated to this Board a number of letters, written from hence, to gentlemen in England, which letters have occasioned great uneasiness.

Among them are six from your Excellency, which appear to the Board to be written and signed with your own hand. The dates of them are, June 18th, Aug. Oct. 4th, Dec. 10th, 1768, Jan. 20th, and Oct. 20th, 1769, and copies of them will herewith be delivered to your Excellency.

The Board have referred the consideration of them, to the next Friday morning, 10 o'clock, and in the mean time, desire to be informed, whether your Excellency wrote letters of the same tenor, with the copies herewith exhibited.

Message from the Governor to the Board.

Gentlemen of the Council,

IF you have any original letters with my signature, and shall lay them before me, I will satisfy you whether they are genuine or not, in what way soever you may have come possessed of them. I do not always keep copies of private letters, nor have I copies of letters of all the dates in your message, and if I had, I think it would not be proper for me to compare your copies with my own, or to inform you whether I have wrote letters of the same tenor, nor could you possibly form a right judgment of the parts of them, unless you should also be furnished with the letters to which mine are wrote in answer."

Message from the Board to the House by a Committee.

May it please the Honourable House,

THE Board being desirous of the fullest evidence of the genuineness of the letters bearing the signature of the Governor, and which were communicated to the Board by the Ho-

A FABLE.

By the celebrated Linnæus, *tranſlated from the* Latin.

ONCE upon a time the ſeven Wiſe Sons of Greece were met together at Athens, and it was propoſed that every one of them ſhould mention what he thought the greateſt wonder in the creation. One of them, of higher conceptions than the reſt, propoſed the opinion of ſome of the aſtronomers about the fixed ſtars, which they believed to be ſo many ſuns, that had each their planets rolling about them, and were ſtored with plants and animals like this earth. Fired with this thought, they agreed to ſupplicate Jupiter, that he would at leaſt permit them to take a journey to the moon, and ſtay there three days in order to ſee the wonders of that place, and give an account of them at their return. Jupiter conſented, and ordered them to aſſembly on a high mountain, where there ſhould be a cloud ready to convey them to the place they deſired to ſee. They picked out ſome choſen companions, who might aſſiſt them in deſcribing and painting the objects they ſhould meet with. At length they arrived at the moon, and found a place there well fitted up for their reception. The next day, being very much fatigued with their journey, they kept quiet at home 'till noon; and being ſtill faint, they refreſhed themſelves with a moſt delicious entertainment, which they reliſhed ſo well, that it overcame their curioſity. This day they only ſaw through the windows that delightful ſpot, adorned with the moſt beautiful flowers, to which the beams of the ſun gave an uncommon luſtre, and heard the ſinging of moſt melodious birds 'till evening came on. The next day they roſe very early in order to begin their obſervations; but ſome very beautiful young ladies of that country, coming to make them a viſit, adviſed them firſt to recruit their ſtrength before they expoſed themſelves to the labourous taſk they were about to undertake.

The delicate meats, the rich wines, the beauty of theſe damſels, prevailed over the reſolution of theſe ſtrangers. A fine concert of muſic is introduced, the young ones begin to dance, and all is turned to jollity; ſo that this whole day was ſpent in gallantry, 'till ſome of the neighbouring inhabitants growing envious at their mirth, ruſhed in with ſwords. The elder part of the company tried to appeaſe the younger, promiſing the very next day they would bring the rioters to juſtice. This they performed, and the third day the cauſe was heard, and what with accuſations, pleadings, exceptions, and the judgment itſelf, the whole day was taken up, on which the term ſet by Jupiter expired. On their return to Greece, all the country flocked in upon them to hear the wonders of the moon deſcribed, but all they could tell was, for that was all they knew, that the ground was covered with green, intermixed with flowers, and that the birds ſung among the branches of the trees; but what kinds of flowers they ſaw, or what kind of birds they heard, they were totally ignorant. Upon which they were treated every where with contempt.

If we apply this fable to men of the preſent age, we ſhall perceive a very juſt ſimilitude. By theſe three days the fable denotes the three ages of man. Firſt, youth, in which we are too feeble in every reſpect to look into the works of the Creator. All that ſeaſon is given up to idleneſs, luxury, and paſtime. Secondly, manhood, in which men are employed in ſettling, marrying, educating children, providing fortunes for them, and raiſing a family. Thirdly, old age, in which, after having made their fortunes, they are overwhelmed with law-ſuits, and proceedings relating to their eſtates. Thus it frequently happens that men never conſider to what end they were deſtined, and why they were brought into the world.

BOSTON, JUNE 21.

EXTRACT from the Minutes of Council laſt Week, relative to the Governor's Letters, &c.

THERE are certain letters which have been laid before the Houſe, ſigned Thomas Hutchinſon, Andrew Oliver, Charles Paxton, and Robert Auchmuty, containing matters that nearly affect the intereſt of this province, and ſome particularly refer to the conduct of the Honourable Board; therefore the Houſe have ordered copies of the ſaid letters to be laid before the Honourable Board, that they may take ſuch order thereon as they ſhall judge proper. The originals are at preſent in the hands of a Committee of the Houſe; but if the Board are deſirous of it, they may have them to compare with the copies.

Meſſage to the Houſe by Samuel Dexter, Eſq.

ACQUAINTING the Honourable Houſe that the Board had read the copies of the letters ſent up, and deſire the original letters may be laid before the Board.

Col. Hanock brought up and laid on the table, the original letters, which after comparing were returned.

Meſſage to his Excellency from the Board by a Committee.

May it pleaſe your Excellency,

THE Houſe of Repreſentatives have communicated to this Board a number of letters, written from hence, to gentlemen in England, which letters have occaſioned great uneaſineſs.

Among them are ſix from your Excellency, which appear to the Board to be written and ſigned with your own hand. The dates of them are, June 18th, Aug. Oct. 4th, Dec. 10th, 1768, Jan. 20th, and Oct. 20th, 1769, and copies of them will herewith be delivered to your Excellency.

The Board have refered the conſideration of them, to the next Friday morning, 10 o'clock, and in the mean time, deſire to be informed, whether your Excellency wrote letters of the ſame tenor, with the copies herewith exhibited.

Meſſage from the Governor to the Board.

Gentlemen of the Council,

IF you have any original letters with my ſignature, and ſhall lay them before me, I will ſatisfy you whether they are genuine or not, in what way ſoever you may have come poſſeſſed of them. I do not always keep copies of private letters, nor have I copies of letters of all the dates in your meſſage, and if I had, I think it would not be proper for me to compare your copies with my own, or to inform you whether I have wrote letters of the ſame tenor, nor could you poſſibly form a right judgment of the parts of them, unleſs you ſhould alſo be furniſhed with the letters to which mine are wrote in anſwer."

Meſſage from the Board to the Houſe by a Committee.

May it pleaſe the Honourable Houſe,

THE Board being deſirous of the fulleſt evidence of the genuineneſs of the letters bearing the ſignature of the Governor, and which were communicated to the Board by the Ho-

honourable House and have been returned, sent a message to his Excellency for that purpose, and have received an answer thereto, both which the Board now communicate to the House. The Board desire of the Honourable House that they will furnish them with the Governor's said letters that they may be possessed of the means of obtaining that evidence.

Message from the House to the Board by a Committee.

May it please the Honourable Board,

THE House are at all times disposed to comply with the request of the Honourable Board, when it is in their power. But with respect to their message of yesterday, the House beg leave to inform the Honourable Board, that they are not, as yet, possessed of authenticated copies of the letters of the Governor, but determine immediately to order such copies, and as soon as the House are possessed of them, the Honourable Board shall be furnished with the originals to be returned to the House upon their request.

Resolve of the Board, directing the Secretary to furnish the Lieutenant-Governor with copies of his letters.

WHEREAS among the letters communicated by the House of Representatives to this Board, which have occasioned great uneasiness, and which are to come under consideration tomorrow A. M. there are four from the Hon. Andrew Oliver, Esq; Lieutenant-Governor of this province, while he was Secretary of the province, dated May 7, 1767, May 11, 1768, Feb. 13, and Aug. 12, 1769, which appear to the Board to be written and signed with his own hand.

Resolved, That copies of the said letters be sent to the Lieutenant-Governor, with desire of the Board that he will inform them, whether he has written letters to England of the tenor of the copies aforesaid. And the Secretary is directed to furnish his Honour with a copy of this Resolve, together with copies of the said letters.

Lieutenant-Governor's Letter to the Secretary, to be communicated to the Board.

SIR, *Boston, 17th June*, 1773.

I HAVE received from you a copy of a Resolve of the Hon. Board, setting forth, That among the letters communicated by the House of Representatives, which have occasioned great uneasiness, and which are to come under consideration to-morrow, there are four from me, bearing date from 7th May, 1767, to 12th August, 1769, which appear to the Board to be written and signed with my own hand, copies of which they have been pleased to cause to be sent to me, desiring that I would inform them whether I had written to England of the tenor of the said copies.

I am obliged to the Board for their candour in furnishing me with those copies before they take the matter into consideration. It does not appear by the copies that any of the letters were directed to any person in England or elsewhere. It is very material to know to whom they were wrote, for there is an essential difference between a free correspondence among friends, and letters wrote to persons in public office. I cannot therefore think it incumbent on me to authenticate imperfect copies, even if it were in my power.

If I should be favoured with a sight of the originals, which is to be supposed are entire and complete, I will not deny my hand-writing, if they are really such; nor will I contest any kind of evidence which ought to be admitted in proof before the Board of their having ever been in England; although I own I should be much surprized to see any letters of mine returned from thence; for I never correspond with any gentleman there, whom I can suspect to be capable of so much baseness as to betray a confidential correspondence; and it is very evident these letters are of that kind.

I have not heard that there has been any attempt as yet to evidence so material a fact as that of the letters coming from England: I cannot therefore think that the Honourable Board will expect me to explain myself further on the subject, or that they will act upon it themselves until this has been done.

Province of the *Massachusetts-Bay*.

On Tuesday, June 15, 1773, the House of Representatives by a large Majority, came into the following RESOLVES, upon the Letters that had been laid before them on Wednesday the 2d of the same Month, viz.

RESOLVED, That the letters signed Tho. Hutchinson, and those signed Andrew Oliver, now under the consideration of this House, appear to be the genuine letters of the present Governor of this province, whose hand writing and signatures are well know to many of the members of this House: And, that they contain aggravated accounts of facts, and misrepresentations; and that one manifest design of them was to represent the matters they treat of in a light highly injurious to this province, and the persons against whom they were wrote.

Resolved, That though the letters aforesaid signed Thomas Hutchinson, are said by the Governor in his message to the House June the 9th, to be "private letters wrote to a Gentleman in London, since deceased," and "that all, except the last, were wrote many months before he came to the Chair;" yet they were wrote by the present governor, when he was Lieutenant Governor and Chief Justice of this province; who has been represented abroad, as eminent for his abilities as for his exalted station; and was under no official obligation to transmit intelligence of such matters as are contained in said letters: And that they, therefore, must be considered by the person to whom they were sent, as documents of solid intelligence: And, that the Gentleman in London to whom they were wrote, was then a member of the British Parliament, and one who was very active in American affairs; and therefore, that these letters, however secretly wrote must natually be supposed to have, and really had a publick operation.

Resolved, That these "private letters" being wrote "with express confidence of secrecy," was only to prevent the contents of them being known *here*, as appears by said letters; and this rendered them the more injurious in there tendency, and really *insidious*.

Resolved, That the letters signed Tho. Hutchinson, considering the person by whom they were wrote, the matters they expressly contain, the express reference in some of them for "full intelligence" to Mr. Hallowell, a person deeply interested in the measures so much complained of, and recommendatory notices of divers other persons, whose emoluments arising from our public burdens, might excite them to unfavourable representations of us, the measures they suggest, the temper in which they were wrote, the manner in which they were sent, and the person to whom they were addressed; had a natural and efficacious tendency to interrupt and alienate the affections of our most gracious Sovereign, King George the Third, from this his loyal and affectionate province; to destroy that harmony and good will between Great-Britain and this colony, which every friend to either would wish to establish; to excite the resentment of the British Administration against this province; to defeat the endeavours of our Agents and friends to serve us by a fair representation of our state of grievances; to prevent our humble and repeated petitions from reaching the royal ear of our common Sovereign; and to produce the severe and destructive measures which have been taken against this province, and other still more so which have been threatened.

Resolved, That the letters signed Andw. Oliver, considering the person by whom they were wrote, the matters they expressly contain, the measure they suggest, the temper in which they were wrote, the manner in which they were sent, and the person to whom they were addressed; had a natural and efficacious tendency to interrupt and alienate the affections of our Sovereign, King George the Third, from this his loyal and affectionate province; to destroy that harmony and good will between Great-Britain and this colony, which every friend to either would wish to establish; to excite the resentment of the British Administration against this province; to defeat the endeavours of our Agents and friends to serve us by a fair representation of our state of grievances; to prevent our humble and repeated petitions from having the desired effect; and to produce the severe and destructive measures which have been taken against this province, and other still more so which have been threatened.

Resolved, As the opinion of this House, That it clearly appears from the letters aforesaid, signed Tho. Hutchinson, and Andw. Oliver, that it was the desire and endeavour of the writers of them, that certain acts of the British Parliament for raising a revenue in America, might be carried into effect by military force; and by introducing a fleet and army into this his Majesty's loyal province, to intimidate the minds of his subjects here, and prevent every constitutional measure to obtain the repeal of those acts so justly esteemed a grievance to us, and to suppress the very spirit of freedom.

Resolved, That it is the opinion of this House, that as the salaries lately appointed for the Governor, Lieutenant-Governor, and Judges of this province, directly repugnant to the charter, and subversive of justice, are funded on this revenue; and as these letters were wrote with a design, and had a tendency to promote and support that revenue, therefore, there is great reason to suppose the writers of those letters were well knowing to, suggested and promoted the enacting said revenue acts, and the establishment funded on the same.

Resolved, That while the writer of those letters signed Tho. Hutchinson, has been thus exerting himself by his "secret confidential correspondence," to introduce measures destructive of our constitutional liberty; he has been practising every method among the people of this province, to fix in their minds an exalted opinion of his warmest affection for them, and his unremitted endeavours to promote their best interest at the Court of Great-Britain.

Resolved, As the opinion of this House, That by comparing these letters signed Tho. Hutchinson, with those signed Andw. Oliver, Chs. Paxton, and Nat. Rogers, and considering what has since in fact taken place conformidable thereto, that it is manifest there have been for many years past measures contemplated, and a plan formed by a set of men, born and educated among us, to raise their own fortunes and advance themselves to posts of honour and profit, not only to the destruction of the charter and constitution of this province, but at the expence of the expence of the rights and liberties of the American colonies.

And it is further the opinion of this House, that the said persons have been some of the chief instruments in the introduction of a military force into the province to carry their plans into execution; and therefore they have been not only greatly instrumental of disturbing the peace and harmony of the government, and causing and promoting great discord and animosities, but are justly chargeable with the great corruption of morals, and all that confusion, misery and bloodshed, which have been the natural effects of the introduction of troops.

Whereas for many years past, measures have been taken by the British Administration, very grievous to the good people of this province: which this House have now reason to suppose, were promoted, if not originally suggested by the writers of these letters; and many efforts have been made by the people to obtain the redress of their grievances:

Resolved, That it appears to this House, that the writers of these letters have availed themselves of disorders that naturally arise in a free government under such oppressions, as arguments to prove that it was originally necessary such measures should have been taken, and that they should now be continued and increased.

Whereas in the letter signed Chs. Paxton, dated Boston harbour, June 20, 1768, it is expressly declared, that "unless we have immediately two or three regiments, it is the opinion of all the friends of government, that Boston will be in open rebellion."

Resolved, That it is the most wicked and injurious representation, designed to enflame the minds of his Majesty's ministers and the nation, and to excite in the breast of our Sovereign a jealousy of his loyal subjects of said town, without the least grounds therefor, as enemies of his Majesty's person and government.

Whereas certain letters, signed by two private persons, viz. Thomas Moffat and George Rome, have been laid before the House, which letters contain many matters highly injurious to government and the national peace:

Resolved, That it has been the misfortune of this government, from the earliest period of it, from time to time, to be secretly traduced, and maliciously represented to the British Ministry, by persons who were neither friendly to this colony, nor to the English constitution.

Resolved, That this House have just reason to complain of it as a very great grievance, that the humble petitions and remonstrances of the Commons of this province, are not allowed to reach the hand of our most gracious Sovereign, merely because they are presented by an Agent, to whose appointment, the Governor, with whom our chief dispute may subsist, doth not consent; while the partial and inflammatory letters of individuals, who are greatly interested in the Revenue-Acts, and the measures taken to carry them into execution, have been laid before Administration, attended to, and determined upon, not only to the injury of the reputation of the people, but to the depriving them of their invaluable rights and liberties.

Whereas this House are humbly of opinion, that his Majesty will judge it to be incompatible with the interest of his Crown, and the peace and safety of the good people of this his loyal province, that persons should be continued in places of high trust and authority in it, who are known to have, with great industry, though secretly, endeavoured to undermine, alter, and overthrow, the constitution of the province.

Therefore, *Resolved*, That this House is bound, in duty to their King and their constituents, humbly to remonstrate to his Majesty, against the conduct of T. Hutchinson, Esquire, Governor, and the Honourable Andrew Oliver, Esq; Lieutenant-Governor of this province; and to pray that his Majesty would be pleased to remove them for ever, from the government thereof.

Immediately after the foregoing Resolves were passed, the House appointed a Committee of five, viz. Mr. Speaker, Mr. Adams, Col. Hancock, Major Hawley, and Col. Leonard, to prepare a humble petition to his Majesty, remonstrating against the conduct of his Excellency Thomas Hutchinson, Esq; Governor, and the Honourable Andrew Oliver, Esq; Lieutenant-Governor of this Province; and to pray that his Majesty would be pleased to remove them *for ever* from the government thereof.

JUNE 24.

On Monday last His Excellency sent the following Message to the Hon. the House of Representatives, viz.

Gentlemen of the House of Representatives,

I Perceive, with concern, for the honour and reputation of the province, * that you have passed, and caused to be published, a number of votes or resolves, in which you have, in an unparalleled and most injurious manner, determined the intentions and designs of the Governor and Lieutenant Governor, in certain private letters, wrote several years since, the originals of which, as alledged, have, by some means or other, came into your possession.

Whilst I was the subject of the debates occasioned by these letters, I did not think it advisable to give you any interruption. Now that you have come to your determination, I must remind you, that you are near to the close of the fourth week of the session, and that you have done little or none of the usual business of the court.

To prevent all unnecessary burthen upon your constituents, by too long a session, I must desire you to give dispatch to such matters as lie before you, or are proper to be acted upon by you.

T. HUTCHINSON.

Province-House, 21st of June, 1773.

The House appointed a committee to take the above into consideration.

Tuesday last the Governor sent the following Message to the Hon. House of Representatives, viz.

Gentlemen of the House of Representatives.

I Desire that as soon as may be, you will cause to be laid before me an attested copy of the Votes or Resolves, which have passed your House, and have been made public, and to which I referred, in my Message of yesterday.

T. HUTCHINSON.

Province House, 22d June, 1773.

Province House, June 22d. Yesterday the House of Representatives passed an humble Petition and Remonstrance to his Majesty, agreeable to their Resolves as above mentioned.

THE growing Importance of the College of NEW-JERSEY, (for the Uſe of which the above Lottery is principally deſigned) is now generally known through every Province of America. In the Centre of *North-America*, and in a pleaſant, healthy Country, it is well fitted for the moſt extenſive Uſefulneſs. The Succeſs which has attended the vigorous Efforts already made, to raiſe its Funds, and furniſh the Means of a complete and finiſhed Education, to all who are ſent to it, has encouraged thoſe concerned in the preſent Attempt; eſpecially as ſeveral very judicious Perſons have warmly recommended it, ſignifying their Surprize, that at a Time, when ſo many have taken this Method of promoting public Undertakings, a SEMINARY, of ſuch Importance, ſhould not alſo put in for a Share of the general Benevolence. This, added to the other Schemes for the Support and Improvement of the College, will afford ſo many Friends of that Inſtitutoin, an Opportunity of contributing with very little Riſk of loſing, and a conſiderable Chance of Gain to themſelves, who would not incline that the ſmall Sums they could ſpare, ſhould appear in a Subſcription Paper.
